## 2. OUR JOURNEY

**1986**

“ÖRS Makine” company is founded by Saliha & Öner Boysan as Mechanical project designer and contractor company.

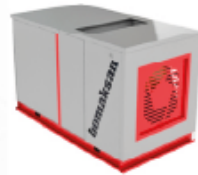

**1996**

ÖRS Makine started to implement innovative sales strategies by selling “boilers” under spot lights in the most crowded street in the city.

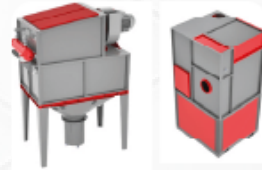

**2000**

ÖRS Makine established its first production shop (1.500 m<sup>2</sup>) to produce HVAC devices and equipmenst like air conditioning units, fans and ducts.

**2006**

ÖRS Makine started produce custom designed (tailor made) industrial fume extractors and dust collectors for variety of industrial customer.

**2009**

ÖRS Makine opened its Istanbul Office and started its transformation from a local company to global dust collector supplier.

**2012**

ÖRS Makine expand its production plant to 3.000 m<sup>2</sup> in order to meet increasing demands and orders collecting from the market.

**2016**

The company name changed to **Bomaksan Industrial Air Filtration Systems** and started to focus only dust collection and fume extraction systems.

**2017**

Bomaksan management is handed over to the 2nd generation of the Boysan Family. **Mr. Bora Boysan** is elected as Managing Director of Bomaksan.

**2018**

Bomaksan expanded its production plant to 6.000 m<sup>2</sup> area in order to meet the production capacity required by our customers.

**2020**

In order to maintain its rapid growth and high customer satisfactions, **Bomaksan expand its management team with professionals.**

**2021**

Bomaksan moved to the new production facility with 9.000 m<sup>2</sup> area in order to keep maintaining our customers' business excellence goals.

## 3. WHY BOMAKSAN?

What makes us Different?

One Stop Shop!

### One Stop Shop!

- **Engineering, Manufacturing** and **Installation**
- **11.000** sqm Production Facility
- **A-Z Sheet Metal** Processing Capacity
- Meeting **international quality standards** and eager to set the bar into another level
- **BOMAX Air GmbH** – Bomaksan Germany Branch Office

*Always*  
with you  
on the way of Excellence

## 3. WHY BOMAKSAN?

What makes us Different?

Our Production Abilities

CNC Plasma &  
Laser Cutting

CNC Press  
Brake

Welding

Painting

Control Panel  
Production

## 3. WHY BOMAKSAN?

What makes us Different?

Our Range of Products

### LEV Products

- **Local Exhaust Ventilation** Products;
  - Mobile Filters
  - Extraction Arms
  - Working Benches

## 3. WHY BOMAKSAN?

What makes us Different?

Our Range of Products

### Compact Products

- **Compact / Plug&Play** Products;
  - PKFC Series
  - ECOG Series
  - LINE Series

## 3. WHY BOMAKSAN?

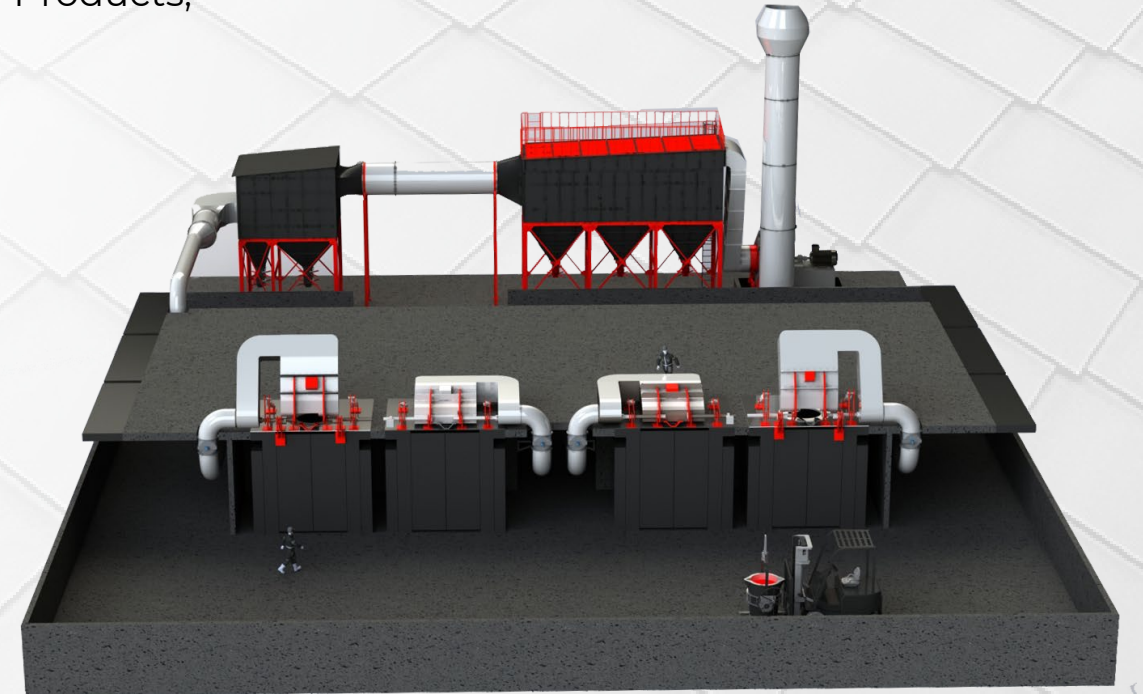

What makes us Different?

Our Range of Products

### Modular Products

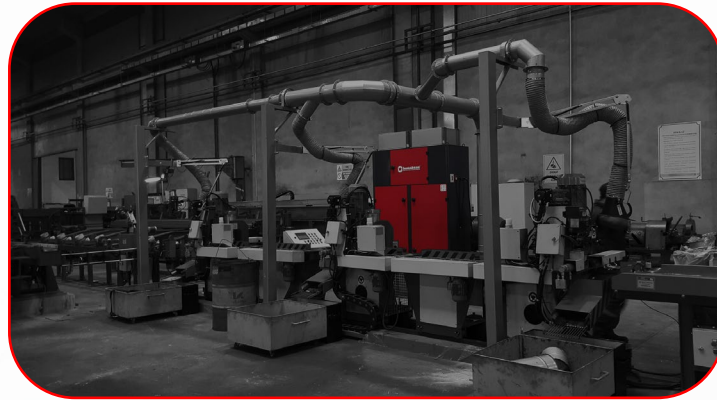

- **Expandable Modular** Products;
  - PLTF Series
  - PKF Series

## 3. WHY BOMAKSAN?

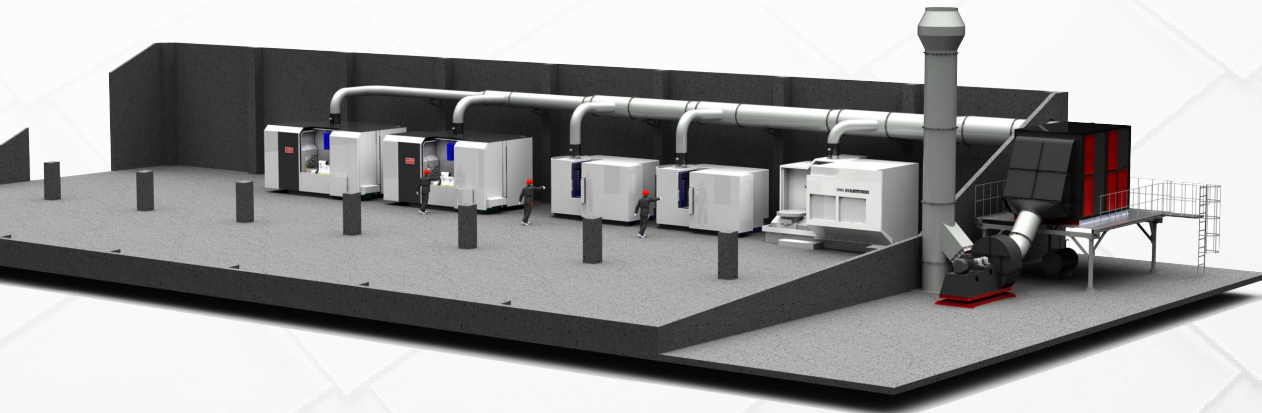

What makes us Different?

Our Range of Products

### Oil Mist Filters

- **Compact / Plug&Play** Products;
  - DT.YBF
  - YBFpro
  - YT.YBF

## 3. WHY BOMAKSAN?

What makes us Different?

Our Focus On Clean Air Technologies

### Dedicated to Cleaner Future!

- Our main **focus is to develop Clean Air** Technologies
- A unique company **manufacturing full range of dust, fume and oil mist** products and solutions
- Built up more than **300** dust,fume and oil-mist collectors all around the World
- A reliable and sustainable partner

*Always*  
with you  
on the way of Excellence

### 3. WHY BOMAKSAN?

What makes us Different?

*We are Always here for you.*

#### **Always with you**

- Effective **after-sales** and **technical service** staff
- Special design options for special requirements
- Quality assurance systems that are actively operated to minimize the risk of production errors

*Always*  
with you  
on the way of Excellence
