ABOUT US

Tracing its roots back to 1797, Derby has continued to remain an important trading house, connecting raw materials from their source through to their end users around the world.

Derby has continued to support and assist Suppliers in identifying both traditional and niche end markets for their materials.

Derby works closely with each customer to support their unique product and logistical requirements.

Derby can handle the entirety of the supply process, from procurement from source through to delivery to the customer whether in warehouse, FOB, CFR or CIF basis; including temporary warehousing, and bespoke processing and packaging needs.

As an independent entity, Derby values both small and larger customers and can also help to mitigate market and supply chain challenges through provision of managed buffer stocks and alternative feedstock solutions.

PRODUCTS

RUTILE SAND

Grades: TiO₂ 85% – 96%
Sizing: Fine to Coarse Grades (< 75 to 300 microns)
Origins: Multiple
Calcination: Possibility for Calcined Grades on request

RUTILE FLOUR

Grades: TiO₂ 85% – 96%
Sizing: 200 Mesh, 325 Mesh and Micronised
Origins: Multiple
Packaging: 25kg bags to Bulk Silo truck

ZIRCON SAND

Grades: Premium, Standard and Low Standard
Sizing: Fine to Coarse Grades (< 75 to 300 microns)
Origins: Multiple
Calcination: Possibility for Calcined Grades on request

ZIRCON FLOUR

Grades: Premium, Standard and Low Standard
Sizing: 200 Mesh / 325 Mesh & Micronised
Origins: Multiple
Packaging: 25kg bags to Bulk Silo truck

PRODUCTS

ILMENITE SAND

Grades: TiO₂ 40% – 67%
Sizing: < 0-500 Microns
Origins: Multiple
Shipment size: Container load quantities to bulk shipment (1000's of tonne)

SPODUMENE

Grades: Li₂O 4% – 7%
Sizing: Lumps or Powder (200 Mesh to 325 Mesh)

METALS

Grades: Ferro Molybdenum - FeMo (Mo content 60% +)
Ferro Vanadium - FeV
Ferro Manganese - FeMn (HC, MC and LC)

OTHERS

Minerals: Mica
Monazite
Metals: Ferro Titanium – FeTi
Silicon Metal

SERVICES

LOGISTICS

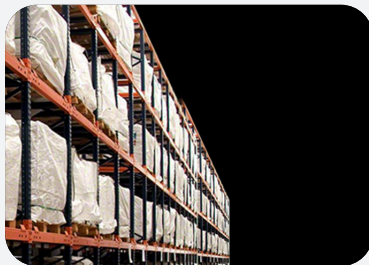

Derby can arrange delivery to customers preferred delivery point by road, rail or sea in full or part load quantities.

PROCESSING

For selected materials, Derby can provide services to convert goods from coarse grain particles or lumps into fine powders, 200 Mesh, 325 Mesh or micronised particles.

MATERIAL HANDLING

STORAGE

Short and Long term warehousing options to support just-in-time deliveries.

REBAGGING

Packing can generally be arranged as required, for delivery either in bulk, big bags or small bags on pallets.

OTHER SERVICES

Other services to be provided upon request, including calcining & screening.

APPLICATIONS

PHARMACEUTICAL GLASSWARE, WELDING ELECTRODES AND PIGMENTS

Whether you are a customer searching for Rutile Sand for E6013 electrodes or Rutile for pharmaceutical tubing. Or if you are a Pigment manufacturer looking for Ilmenite for Sulphate or Chloride pigment, Derby will help identify the correct Rutile Sand, Ilmenite, Mineral Sand for your application.

REFRACTORIES AND CERAMICS

Derby can source Zircon Sand and Zircon Flour for Ceramics and other specialist uses. Whilst being a smaller player in this industry, Derby has assisted many customers with their Zircon requirements in times of difficult market conditions.

SPECIALIST STEELS & ALUMINIUM FOUNDRIES

Derby's extensive experience in the Metals Trading business has enabled it to build up selected sources for the supply of Ferro Molybdenum, Ferro Vanadium as well as other Metals for the use across several specialist end uses.

NEW APPLICATIONS

Working closely with R&D Departments, Derby assists with sourcing raw materials for new and Green uses.
