

**LC Lasers** is a manufacturing company dedicated to designing, building and marketing all types of **laser equipment and solutions**. LC focuses on three sectors in the world of industrial lasers: **laser welding, laser cleaning, and laser marking**. **LC Lasers** is committed to bringing the laser world closer to **all kinds of industries and sectors**.

## Own manufacturing and original design

We have improved our **laser systems** over time using unique designs fully created and **manufactured by LC**. We give a crucial value to Technological Innovation and Development to find the best laser solutions. Thanks to the satisfaction of our customers, at LC Lasers we continue to offer products with **passion, commitment and transparency**.

## Global presence

LC selects the best worldwide partners to develop the brand and laser solutions in their territories.

Service  
post-sale

solutions

# WELD. CLEAN. MARK.

At LC we work to offer the best laser solutions in the world of welding, industrial cleaning and the marking and engraving of products.

# Why LC?

## Laser SOLUTIONS experts

**Productivity improvement**

**Proximity with the user**

**Personalized advice**

**Laser safety solutions pioneer**

**Complete customer training**

**After-Sale Service**

**Local distribution network**

**Energy efficiency**

**LC Lasers** not only offers products, it offers a complete quality solution, with a high-level technical service and after-sales service, which guarantees a better experience with the laser equipment. In addition, another very important aspect is LC's firm commitment to laser safety, carrying out specific studies and certifications to be able to offer comprehensive solutions so that each user has the necessary training and information to be able to carry out their work with the laser equipment in complete safety.
