World's leading trade fair for joining, cutting and surfacing:

## Further industry leaders confirm participation in SCHWEISSEN & SCHNEIDEN 2025

CLOOS, KUKA and Air Liquide will be exhibiting at Messe Essen

The world's leading international trade fair SCHWEISSEN & SCHNEIDEN will take place at Messe Essen from September 15 to 19, 2025 with further industry leaders. Following FRONIUS International, Panasonic, MicroStep, Messer Cutting Systems, Messer SE & Co. KGaA, Trumpf, LORCH and OTC, CLOOS, KUKA and Air Liquide have now also confirmed their participation in the most important platform for joining, cutting and surfacing. "We are delighted to have three more top-class partners at our side who will enrich SCHWEISSEN & SCHNEIDEN 2025 with their presence. This is a strong signal for a successful trade fair," explains Oliver P. Kuhrt, CEO of Messe Essen.

Stephan Pittner, Managing Director of Carl Cloos Schweisstechnik GmbH, is also looking forward to the next edition of the world's leading trade fair: "As the leading trade fair for joining technology with a global reach, SCHWEISSEN & SCHNEIDEN plays a decisive role in the marketing of our products and processes. CLOOS was already present at the very first edition - and not without reason. Even today, the trade fair offers the ideal environment for presenting new and further developments to an international and highly qualified audience."

### Major industry event

SCHWEISSEN & SCHNEIDEN 2025 will focus on current industry topics: Today, sustainable and efficient production is a declared goal in order to be a long-term success in the manufacturing industry market. In order to save material and energy as well as counteract the shortage of skilled workers, digitalization and automation processes in particular represent viable solutions for the future. As one of the world's leading suppliers of intelligent automation solutions, KUKA is also confirming its participation in the world's leading trade fair. "SCHWEISSEN & SCHNEIDEN is the most important trade event for the metalworking industry. It provides ideal conditions for discovering the latest technologies and innovations. The trade fair

offers an ideal framework for presenting, sharing and discussing product highlights," says Siegfried Heissler, Global Business Development GI Metal at KUKA.

## **Exchange of knowledge and expert information at first hand**

The extensive supporting program of SCHWEISSEN & SCHNEIDEN 2025 also offers space for discussion and, above all, new input. Among other things, a congress of the DVS - German Welding Society, expert forums, talks with specialists as well as product presentations and live demonstrations are planned. After its great success in 2023, underwater technology with demonstrations in a diving container will once again be a focal point.

Sebastian Jureczek, Chairman of the Management Board at Air Liquide Deutschland GmbH, emphasizes: "We will be back at SCHWEISSEN & SCHNEIDEN next year. The trade fair is an important platform for us to present our innovations to the global experts in joining and cutting technology. In 2025 we will be there with our process cost analysis 'Unlocking Hidden Cost of Welding', our application technology expertise and our extensive product portfolio, among other things, and look forward to talking to our customers and interested people."

## **SCHWEISSEN & SCHNEIDEN goes abroad**

The fact that SCHWEISSEN & SCHNEIDEN is also successful outside of Germany is demonstrated by its activities abroad. At the next BEIJING ESSEN WELDING & CUTTING, from August 13 to 16, 2024 in the Shanghai New International Expo Centre, Messe Essen will host the German joint stand on behalf of the Federal Ministry of Economics. INDIA ESSEN WELDING & CUTTING will follow in the autumn from November 27 to 29 at the Bombay Exhibition Center in Mumbai - including a technical conference and welding competition. In addition, Messe Essen has once again been awarded the contract to organize the German joint stand at SteelFab. The trade fair in the United Arab Emirates will next take place at the Expo Centre Sharjah from January 13 to 16, 2025. Messe Essen is also using the strong presence of SCHWEISSEN & SCHNEIDEN in the leading international markets to draw attention to the world's leading trade fair in Essen in September 2025 and to expand its network.
