WHAT WE DO

We develop and supply innovative smart solutions

Reducing the distance between inspiration and realization.

- Rapid deployable standalone mobile surveillance solutions
- AI powered units

- Tailor made product design
- Software development
- API integration

- Network backbone
- Secure connectivity services
- Industrial electronic design

BELIXYS OFFERS YOU

Belixys designs and manufactures smart surveillance solutions to break through the walls of complexity, and accelerate global innovation.
Push products to new heights of excellence with high performance, high-integrity design and optimization solutions backed by deep expertise.
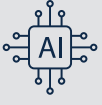

AI SOLUTIONS

Belixys develops and integrates AI software to offer intelligent behavior like learning, reasoning and problem-solving.
It performs a range of tasks that typically require human intelligence, from a simple job to complex process of analyzing millions of data sets. AI machine learning in security and surveillance helps authorities to identify and detect threats.
