security
GmbH

Most modern security technology made in Germany – at CM Security GmbH you are **assuredly** right!

At CM Security we combine a distinctive inventive spirit and high technical knowledge with the highest flexibility.

Fast, uncomplicated and highly adaptable – these are the qualities that numerous installers and renowned OEM customers value in us.

Customized CM solutions are our trump card. This applies both to our own products and to customer-specific OEM products.

90 % of all components come from our own production. There is a system behind the high quality, durable and robust products:

We manufacture according to DIN EN ISO 9001 certification guidelines.

So gladly: Everything from one source, everything for the best solution!
