

## SECURITY AND SAFETY FOR PEACE OF MIND

Established over a quarter of century, Essence Security has become a recognized global technology leader, providing high quality and innovative wireless security solutions and services to some of the world's largest security service providers.

Since its inception, Essence Security has built an impressive install base of alarm panels, detection and sensing solutions, video verification devices and safety monitoring peripherals. All of these with a focus on ensuring not only the physical security of its users, but also giving an end-to-end cyber security and privacy protection.

## INDUSTRY LEADING BREAKTHROUGH SOLUTIONS

At Essence Security, we take care of the technology, so you can deliver a seamlessly secure and profitable connected living experience to your customers.

From the latest smart home cloud platform to professionally monitored secure home products and services, our IoT technologies enable market-leading smart home and security monitoring companies to provide secure connected living at its best.

### SMART SECURITY

**WeR@Home**

End-to-end Security and Home Monitoring Platform

### INTERVENTION

**MyShield**

The world's 1st IoT all-in-one Intruder prevention solution

Mobile Personal Safety Platform

### About Essence Security

Established 1994

HQ in Israel, offices in US, Spain and Australia

#1 Provider of wireless security systems

More than 4 M households installed

Groundbreaking patents

IoT based cloud services platforms

Industry Awards

## THE ESSENCE SECURITY DIFFERENCE

- Recognizing market needs and the ability to develop innovative solutions to meet them
- Large R&D group with combined skillset of over 30 core competencies
- Multi-faceted expertise allows us utilize hardware, software and cloud computing to provide combined solutions
- Unique suite of advanced intervention technologies that actively prevent intrusions
- Using analytics and artificial intelligence to enhance security, safety and the user experience
- Multi-layer protection of customer privacy and security both from physical intrusion and cyber attack

## ESSENCE SECURITY INNOVATIONS

Pioneering use of Cat-M IoT networks for security and safety devices

Breakthrough security intervention technology

Battery operated HD video over low frequency RF communications

AI and machine learning capabilities encompassing servers, hubs and peripherals

End-to-end cyber and authentication

Industry leading RF 2-way communications, capable of high data rate and encryption

Concurrent voice, HD video and system commands over LTE networks

Pioneering the use of radar imaging technology to create virtual fences and track intruders

**Industry-leading home security & monitoring companies trust Essence technologies and platforms to keep millions of families and businesses around the world safe and secure.**
