

ASC MACHINE TOOLS

SPOKANE, WA  EST. 1949

ABOUT

ASC MACHINE TOOLS

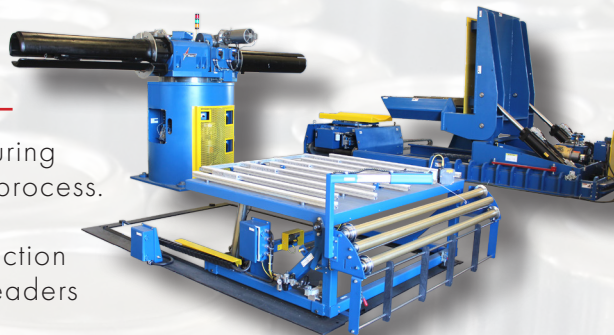

Originally founded in 1949, ASC has been serving the metal forming industry exclusively as a machinery engineering and manufacturing company for over 65 years.

ASC specializes in rollforming machinery and coil handling equipment utilized for metal processing.

EXTENSIVE EXPERIENCE AND RELIABILITY

ASC is a vertically integrated machinery design and manufacturing company and performs virtually all steps of the manufacturing process.

Its primary business is providing equipment for the steel construction industry and the two-piece food and beverage can industry. Leaders in the steel construction industry demand ASC machines.

Industries using ASC machines include pre-engineered buildings, metal building components, steel decking, structural beams and grain bin manufacturers.

ASC also supplies metal-forming equipment to other industries such as solar, lighting, garage door, stamping, heating and air conditioning.

QUALITY BUILT IN THE USA

ACS's unique experience enables it to apply a wealth of knowledge to the design and manufacture of metal-forming machinery, and provide ongoing support of the machines that make your business grow.

Whether you need a single machine or an entire system, ASC has the experience and dedication to build and support the equipment that will take your business into the future.

WORLDWIDE AVAILABILITY

With operations in the United States and the United Kingdom, ASC ships processing lines throughout the world.

A history of quality, ingenuity, and unparalleled customer service over the last six decades has firmly established ASC as an industry leader.
