

At Industrial Physics, we provide packaging, product, and material test and inspection solutions to manufacturers, production lines, and laboratories across the world. Operating across a family of specialist testing brands, including CMC Kuhnke, and many more, it's our purpose to protect the integrity of our customer's brands and products.

For us, this is about more than just supplying you with testing equipment, it's about being there for you as a full-solutions partner. Whatever your needs are, we'll work with you to find the right solution for your business. We have a full team of experts to support you.

When it comes to quality control and R&D within the metal and can industry, we know our stuff. We offer a full suite of solutions to cover an extensive range of testing requirements for your requirements.

It's our innate desire to continuously learn, innovate, and better ourselves that allows us to provide businesses across a diverse range of industries with the highest quality of test and inspection solutions possible. Our experts are positioned across the world. And through our collective expertise, we're able to support the unique needs of our customers. Just like we've been doing for 100 years.
