

# MAKING A DIFFERENCE DEMANDS A PRODUCT THAT DOES REALLY RIGHT!

Looking for a sustainable gift or business gift that will not only put a smile on the face of your customer, relation or employee, but at the same time make the world a bit healthier and more livable? Then look no further! Because with our attractive green packages you really have a good story.

## Green does (you) good!

### How about that?

Living greenery makes every person happier and healthier. It literally makes you calmer, happier, more positive and more active. And it is also very atmospheric.

More greenery is the most effective and sympathetic answer to social issues such as flooding, heat stress, particulate matter and declining biodiversity.

### Who are we?

A social enterprise that strives for a nicer, sustainable and healthy living environment by bringing greenery closer to people. We do this by making greening fun, easy and accessible through attractive packages. And by partly reserving our proceeds for social greening initiatives that would otherwise not get off the ground.

### A TILE OF FLOWER BULBS

A nice sustainably grown bulb package with 50 bulbs in gift packaging. Fits through the letterbox. Nice and accessible and good for biodiversity. This is how you give a box of pure happiness! In two themes (spring and autumn).

*Price on request*

### A TILE OF GREEN

Three sustainably grown perennials in a beautiful gift tray with which up to three patio tiles can be easily replaced. The ideal push to swap gray for green. With that you set every heart on fire. Available in six themes.

*Price on request*

### A METER OF GREEN

Eight sustainably grown perennials with which a square meter of garden can be greened. Or a facade garden can be created. Conveniently packed in a sturdy box. A nice boost for people and nature!

*Price on request*

### What can we do for you?

If desired, our packages can be provided with your logo and/or message.

With our themes you can connect to your brand and/or (sustainable) message.

Our packages can be delivered in large numbers and come fresh from the grower.

We work together with growers who deliver within Europe and who fulfil all quality requirements.
