

# why BAMAPLAST

# 1

## HISTORY

Bamaplast U.L.c. is a family owned company founded in 1970, a family-run female business managed by three sisters: Paola, Sandra and Roberta Mazzoncini.

Bamaplast has been the first to produce a square pot, to replace the round containers. Thanks to his ability, Bamaplast has enhanced the quality of this pot. With his particular internal veins, an innovative system called antispiralling, all kinds of plants can grow more healthy and much faster. To complete his innovative product line, Bamaplast has created a patented pot called EVO.

# 2

## COLLECTION

The founder, Mr. Morello Mazzoncini, anticipated the rising request of new products for the nursery market. Therefore Bamaplast introduced the first polypropylene and polyethylene pots in the market. The vision has always been oriented to retain the customers and his internal staff, together with the power to satisfy all the needs, customizing the products according to the market request. A lot of plastic pots and containers for nursery, greenhouses, floriculture and garden, ready to satisfy your needs: see our website [www.bamaplast.it](http://www.bamaplast.it)

# 3

## INNOVATION AND ADDED VALUE

Thanks to the internal workshop, Bamaplast technicians study and realize continuously new kind of pots, according to the request of the market. Result of these researches is our latest patented nursery pot "EVO".

EVO raises completely the plant from the ground and thanks to its unique holes system guarantees the protection of the root from the attack of pests and weeds, while facilitating a perfect air circulation to the roots.
