

MAISON Barrault

Passionate horticulturists

Maison Barrault is located in La Possonnière, on the banks of the Loire. The region of Anjou, a historic area of ornamental horticulture, offers a mild climate ideal for growing plants.

 Established in the **most dynamic horticultural region of France**, the company benefits from **strategic cluster**: specialized transport, logistics platform, plant advice firms, horticultural supplies, greenhouse growers, specialized jobs, research and education pool, etc.

 Maison Barrault claims more than **70 years of experience** in the world of plants.

 Every year we produce more than **11 million plants in 3000 varieties**.

 Total surface area of 33 hectares including 10.77 hectares of greenhouses and tunnels.

 More than 100 trained and passionate permanent **employees** grows crops and sort plants just before shipping orders.

 We are specialists in a wide range of **PERENNIAL AND AROMATIC plants**.

 A **diversity of containers**, which adapt to different markets:

 Diversified **professional customers**: garden centers, wholesalers, exporters, producers, nurseries and cities.

 Our strength is our plant knowledge: we are **multipliers** of nearly 70% of our production. Our field of **mother plants** provides us with **acclimated and hardy plants**. Propagation done from seeds, cuttings, young plants and division of rhizomes and bulbs.

 Perennials and aromatics are **grown outdoors**, in a **long production cycle**. Frequent potting and cutting operations allow good formation of the plant and **optimal rooting**: a guaranty of quality.

 The Company constantly invests in **high-performance tools**, giving plants a high quality. **Robotics** allows us to reach significant yields and recognized **regularity**.

 **Our certifications:**

MPS : level A since 2010
