

## V.O.F. ANTON BUITENHUIS

### CONIFERS YOUNG PLANTS

#### INNOVATION: NEW TRAY 18

We produced this season in a new tray 18 (Round P10,5).

Two big advantages:

8-12 more trays on a CC trolley

8-12 more trays in a box pallet

#### NEWS: NEW WEBSITE WITH CURRENT STOCK

This season we have refreshed our website.

You will find pictures and information about our Conifers young plants. Also very interesting for our customers is the current stock list. The stock list is automatically refreshed every day. Take a look at:

[www.antonbuitenhuis.nl](http://www.antonbuitenhuis.nl)

#### PRODUCT: CONIFERS, YOUNG PLANTS IN GROWTRAYS

- The cultivation in growtrays makes it easy to process the plant material.
- Thanks to our cultivation method, we supply well-rooted young plants.
- By covering the growtrays with bark, we prevent moss and weed growth.
- Pruning several times during the season produces strong and compact plants.

We are MPS-A certified. No. 911667.
