

**CONSORZIO
ORTOVIVAISTI
PISTOIESI**

Company's introduction

The Consorzio Orto vivaisti Pistoiesi is a co-operative founded in 1974 in order to commercialize the plant nursery production of our associates.

Today, after almost 40 years, we have been cultivating plants on an area of approx. 100 ha, divided between plants in open ground and in containers.

Our nurseries are located in Pistoia, recognized as the most important nursery centre in Europe thanks to a favourable combination of ground and climate conditions, that allows the cultivation of a wide range of plants suitable for diverse climates: from the northern to the Mediterranean and subtropical as well.

Beyond to the Italian market, which absorbs over 50% of our products, we sell also to the main countries in northern Europe (Germany, Switzerland, Belgium, Holland, United Kingdom) and the Mediterranean (Spain, Croatia, Greece, Turkey and Lebanon).

To realize the range and quality of our production, you can visit at any time of the year to see the range and quality of our production. Please telephone to make an appointment. Our sales staff will be happy to assist and advise you in your choices.
