

SPECIALIZED IN AGRICULTURAL TOOLS FOR FRUIT TREES

Dain Industry has made tree training materials for shaping fruit trees from 2003. Dain Industry is widely and well known among Korean farmers for being professional in tree shaping field for more than 10 years. Dain Industry will continue to do our best for efficient fruit producing with farmers just as we have done until now.

E-Twister

*The innovation of shaping branches
in the summer. Free from the wires.*

- ☑ You can shape the branches at any degrees and directions.
- ☑ Ideal tree shaping facilitates more flower buds and early fruit setting.
- ☑ Long lasting durability as it's made of strong engineering plastic.
- ☑ Breakaway bump prevents abolition when using SS machine.

Name of good	Size	Packing Unit
