

**LEAVING
A BETTER
PLANET
THAN WE
FOUND**

NATURING CHRISTMAS

We punctually deliver high-end, sustainable Christmas trees all over Europe at a fair price. As farmers who take pride in what we do, we think of this as a privilege. We get to have a little Christmas all year, and once a year we get to spread the joy.

We deliver the part of Christmas that's nature. An important part, which must be treated with respect and recognized for its importance in all of our lives.

Green Team - Naturing Christmas

Locally grown
premium trees from
the leading farmer

WHAT WE DO TO DO BETTER

- Prohibiting Glyphosate
- Decreasing plastic
- Reducing use of PP
- Using bio fuel
- Minimising fertiliser
- Banning neonicotinoids
- Sowing wildflowers
- Creating insect banks
- Cutting down on CO2
- Using Renewable Resources

THE GREEN TEAM WAY

HAPPY HABITAT

Our nature is under pressure from intensive farming and the use of pesticides, fertilizer and inconsiderate farming. At Green Team we create a better habitat for all plants, insects, butterflies, birds and other wildlife that live in our fields.

NATURALLY NATURAL CHRISTMAS

Growing a Christmas tree takes more than 10 years. That's why it is important that we farmers make sure that we farm as gently as possible. We do all we can to reduce our footprint and do everything the greenest way possible. We also protect important nature areas and wetlands as well as archeological sites.

SATISFIED SANTA

If our customers, our employees, our subcontractors and all other stake holder aren't satisfied - we sure ain't either! We take pride in having the best quality, delivery performance and service. Our work on social responsibility covers several aspects, and we monitor and improve on how well our employees and subcontractors thrive while working with us.

CERTAINLY CERTIFIED

Our certificates demonstrate our commitment and professionalism, our desire to uphold industry standards and to understand how we interact with the world around us. Our eight certifications covers a total of more than 6900 control points, imposing regular self-assessment, internal audits and management reviews.
