Metal Planters

Metal garden planters are necessary decorative accessories in every home garden or urban greenery. Designerly composed with your favorite plants, they create a unique style of each green space. At ITC Garden, we have created planters that are durable, stable, stylish and, importantly, support plants in any weather.

Sizes

- ➔ 1200x400x400
- ➔ 1000x400x400
- ➔ 800x400x400
- ➔ 1200x300x300
- ➔ 1000x300x300
- ➔ 800x300x300
- ➔ 400x400x800-H

Style and functionality of metal garden planters.

We offer metal garden planters in two color variants. Expressive dark graphite accentuates the minimalist style of modern objects and builds the dynamics of space through strong contrasts. In turn, the classic subdued light shade of gray is a proposal for enthusiasts of traditional arrangement compositions and colors that harmonize the space. The elegant style of our planters goes hand in hand with the quality of the material. Metal garden planters are made entirely of hot-dip galvanized sheet metal and powder coated in an automated paint shop.

Basic parameters of ivy green screens:

- ➔ Plant: Hedera Helix ivy
- ➔ Height: 180 cm
- ➔ Panel width: 120 cm
