

# MESTO®

SPRAYERS MADE IN GERMANY

Efficient spraying made in Germany:  
**MESTO – the ideal choice for professionals  
and discerning private users.**

Most professionals and discerning private users already know: MESTO is the number one choice when it comes to efficiently spraying liquids. But we want to do so much more. At our family company, we are always looking for even better product and service solutions that provide you with tangible added value.

Protecting our natural resources is also something we take very seriously. While the aspects of durability and repairability are just as important as our specific beliefs regarding spraying agent consumption: as much as necessary, as little as possible. **[www.mesto.de](http://www.mesto.de)**

**MESTO®**

SPRAYERS MADE IN GERMANY

# PRO

Page 4 – 7

**As a professional user** you need, above all, robust, ultra-safe and ergonomic sprayers that ensure both comfort and fatigue-free work. With numerous nozzles for various applications. And guaranteed 20-year availability of spare parts. MESTO reliably helps to save time and material – that's a promise.

- **Effective care of plants and green spaces**
- **For protecting and strengthening plants in the sectors of fruit, wine and vegetable growing, forestry and agriculture as well as gardening and landscaping**
- **With innovative sprayers, also for working on large areas and at high levels**
- **Also designed for extended and frequent use**

# PRIVATELY

Page 10 – 13

**As a private user** you attach great importance to professional-grade products. Ease of use is essential to naturally take care of and protect your plants: as quickly, effectively, specifically, efficiently and environmentally as possible. MESTO offers an array of practical product solutions to achieve these aims.

- **For garden, balcony and indoor plants**
- **For taking care of, protecting and strengthening plants**

Do you want to spray liquids effectively, efficiently and sustainably? We do. This is why we only offer robust products that always work reliably. With optimized nozzles for perfect and complete application of your spraying agents. With ergonomic shut-off valves and powerful pumps. And it goes without saying that our sprayers are durable, intuitive to use, easy to clean and space saving. This is the highest end of the price-performance spectrum. Made in Germany.

## MESTO high compression sprayers

6 bar of pressure, the robust spray wand and the professional-grade brass pump ensure longer working intervals and a greater range.

### 5 L

With a spiral hose for extra comfort and a large range when the device is standing or being carried on your side.

Type 3565

Type 3595

### 10 L

Twice the filling capacity for bigger tasks. The constant flow valve ensures optimum spraying; drops of spray remain as fine as necessary. Can also be carried on your back.

Type 3585G

Type 3615G

## MESTO backpack sprayers

Perfect for optimal handling and continuous use on large areas.

# 18 L

**Type 3558**

Large filling capacity in a lightweight design.

The pressure gauge in the shut-off valve ensures you always have the spraying pressure under control.

Make life easier for yourself: on MESTO backpack sprayers the pump lever can be fitted on the left or right-hand side. Use the cushioned chest strap and hip belt to adjust the backpack sprayer for longer and more back-friendly working intervals. Apply products sparingly thanks to the measuring cup integrated in the tank cap and have full control of the optimal spraying pressure at all times. The integrated filling screen allows you to fill a prepared spraying agent without the need for pre-filtering.

**The 12 liter plastic tank backpack sprayer Type 3552** is the perfect helper for professional users that offers plenty of comfort, e.g. due to an ergonomically shaped pump lever whose length and width can be adjusted, the shut-off valve with a pressure gauge and the integrated filter.

**Type 3541G**  
Vintage retro style stainless steel backpack sprayer.

## MESTO dust binders

Protect your body and your health when cutting stoneware or concrete.

**With the aid of a pressurized water tank,** dust binding is achieved using water. For greater safety and comfort without the need for a permanent water pipe; simply fit the device to a common grinder or core drill. Including an extra long hose and hose coupling with aquastop.

**5 L**

**Type 3237W**  
Max. 3 bar of pressure

**10 L**

**Type 3270W**  
With hose holder and funnel cover

**10 L**

**Type 3585**  
**Steel tank** Max. 6 bar of pressure  
With funnel cover

## MESTO guarantee

Our robust professional-grade sprayers save you time, material, money and hassle.

### Sustainability

- The largest filling opening with integrated filling funnel on the market facilitates filling and emptying, without any spillage.
- We have the right nozzle for every application to ensure you do not apply more spraying agent than necessary.
- The bottom-mounted hose outlet minimizes residual quantities, thereby allowing you to spray all the liquid.
- We work tirelessly on reducing our CO<sub>2</sub> footprint and therefore continue to manufacture our products in Germany.

### Ergonomics and comfort

- The ergonomic shut-off valves help protect your wrist and ensure fatigue-free work.
- The ergonomically shaped pump handle can be gripped with both hands and is ideal for transporting the device.
- The base with handy foot ring ensures a stable stand – even on uneven surfaces.
- The ergonomic backpiece and padded shoulder straps provide a high level of wearer comfort.

### Nozzle protection

- The funnel cover prevents dirt contaminating the tank.
- The pump holder prevents the pump being on the dirty floor when filling – the spraying liquid and the nozzle stay clean.
- The space-saving spray wand holder prevents clogging of the nozzle during storage.
- Various filters protect against wear and clogging of the nozzle.

**MESTO**

Do you love your well-kept garden and therefore invest in professional-grade gardening tools and accessories? An excellent idea. MESTO offers smart sprayers and services that help you get your gardening done with ease in an efficient and resource-friendly way. Since you should, above all, enjoy your green oasis to the fullest.

## MESTO for indoor rooms and balconies

Your plants deserve the best.

**Whether in the garden or on a balcony:** your plants will benefit from professional-grade care and thank you through strong and healthy growth. To ensure it stays that way, MESTO offers handy and reliable sprayers for irrigation, plant protection, plant strengthening, flower and plant care as well as optimal liquid fertilizer dosing.

**Trigger sprayer Type 3111\***  
0.5 or 1 liter sprayer in yellow or green, with adjustable nozzle from spot jet to fine and even atomization. Also available as a 360° sprayer.

**Pressure sprayer Type 3130\***  
1 or 1.5 liter sprayer with translucent tank, filling level scale and adjustable nozzle.

**Pressure sprayer Type 3132\***  
1 or 1.5 liter sprayer for plant protection products, with a 2-in-1 valve that enables automatic pressure release in case of overpressure and manual pressure release, if required. Also available as a 360° sprayer.

**Pressure sprayer Type 3131**  
1.5 liter sprayer for plant protection products, with a brass swivel nozzle and a 2-in-1 valve.

## MESTO for indoor rooms and balconies

Practical helpers for plant care in discreet colors.

There is definitely no reason to hide our handy spray bottles and watering cans. Since they are now available in three on-trend colors that blend harmoniously with every environment.

**Trigger sprayer Type 3111DF**

**Watering can Type 3181DF**

**Pressure sprayer Type 3132DF**

- Forrest
- Marine
- Snowy

## MESTO pressure sprayers for agents containing pelargonic acid

Strengthen plants to protect against pests, fungal diseases and nutrient deficiencies.

### Type 3132U

Pressure sprayer with variable extension wand for effectively spraying into boxwoods, for example. Mixing plant protection products is very easy due to the 1.5 liter filling level scale with viewing strip and the embossed 5 – 15 % mixing ratio. The optional spray shield prevents drift to neighboring plants when using herbicides.

### Type 3275M

Are you looking for even more comfort? The 5 or 10 liter Type 3275M devices enable longer spraying with less pumping thanks to the large pressure reservoir. While the base with foot ring, the spiral hose and the robust shut-off valve guarantee greater stability when pumping.

Type 3132U

With brass spray wand and pressure gauge.

Type 3275M

## Dealing with boxwood moth caterpillars

Put a stop to invasive parasites in your boxwoods!

It usually takes a lot more than some well-intentioned home remedies to rid your carefully-tended ornamental boxwoods of their hungry arch-enemy, the boxwood moth caterpillar!

With MESTO compression sprayers and the extension wand you can spray deep into the interior of your plants.

## MESTO compression sprayers

Effective spraying also with smaller quantities.

If smaller quantities are sufficient for your garden, then we recommend our smart entry-level devices. These easy-to-carry sprayers offer a filling capacity of 3 to 5 liters. The 3 bar of pressure, hollow cone nozzles and optionally extractable spray wands make tending to your plants a simple act.

Variants with a filling capacity of 5 liters or a rechargeable battery powered pump are also available (Type 3232EZ).

**Type 3230R**

Lightweight and easy to use thanks to its plastic design.

**Type 3232**

Particularly robust sprayer with a brass spray wand.

**Type 3237**

50 – 90 cm greater range due to the extractable spray wand.

## MESTO weed killers

To protect your and neighboring plants.

Sometimes there is no other way to solve the problem of weeds taking over your garden and weakening other plants! Our special sprayers are designed to meet your personal needs and equipped with spray shields to prevent drift.

**Type 3232EM**

With EPDM seals for herbicides containing acetic acid.

**Type 3232U**

For the application of common herbicides, lightweight and easy to use thanks to its plastic design.

**Thermogärtner Type 1760**

Using flames to effectively get rid of weeds.

## MESTO accessories for compression sprayers

With a 20-year availability guarantee on all spare parts.

### Constant flow valve Type 1520M\*

Guarantees a constant, economical application of agent. To ensure a perfect spray pattern, it closes at a certain pressure in the tank.

\* Constant flow for **Type 1520MK** 1 bar, **Type 1520MM** 1.5 bar, **Type 1520MG** 2 bar.

### Extension wands

Optional and easy to attach, extension wands enable the targeted application of agent deep into the interior of your plants. This guarantees more effective application of all kinds of spraying agent. Extension wands are available in various lengths and materials.

### Spray shield Type 3914D

Is made of particularly lightweight but impact-resistant plastic. It helps to ensure targeted, economical spraying without drift in gardens. Equipped with a flat jet nozzle, it produces a particularly fine spray pattern.

### Large filler screen Type 6122

For the pre-filtering of, e.g., self-prepared biological mixtures, etc. The filler screen prevents dirt from entering the tank and clogging the nozzle. It fits into compression sprayers Type 327... and high compression sprayers.

### Rain meter Type 3100

For exact determination of the rain quantity. Equipped with a universal holder for versatile attachment to a pole, balcony, fence post, etc. Measuring scale for up to 50 liters of rain.

### Tong nozzle Type 3778

For bark beetle control and under-leaf treatment in row crops. Nozzle angle continuously adjustable by re-bending. Many other nozzles can be found online.

### Dosing set Type 3921

For the fast and precise dosing of agent quantities from 1 to 100 liters. Scales for powdery agents and a dosing syringe for liquid agents. Completely independent of pre-dosed small packs, the dosing set ensures the perfect mixture.

### Protective clothing Type 3923

Designed to protect clothes and people when spraying plant protection and care products. This set includes a hooded protective suit, disposable protective gloves and a face mask.

## MESTO product overview
