

COMPANY PROFILE

NINGBO CHUANGSHENG HORTICULTURAL PRODUCTS CO.,LTD.

together forward and co-create a better future

Ningbo Chuangsheng Horticultural Products Co., Ltd., located in Cidong Littoral Industrial zone, is only two hours' drive from Shanghai and half hour's drive from Ningbo Port (Chinese second largest port). The traffic is extremely convenient.

Chuangsheng's continuous success in the field of horticultural area is inseparable from its strict and complete production system. We have a powerful design and R&D team, and have established long-term cooperation with Zhejiang Academy of Art and College of Science & Technology Ningbo University, which ensure the innovation and design capabilities of our products. The products have always maintained a sophisticated and avant-garde design. Chuangsheng has achieved Independent production from project creation, product design, mold development, to production processing. Relying on first-class injection workshops and automatic feeding system for supporting materials, our daily injection molded parts are up to 50 tons.

DEVELOPMENT HISTORY

Since the first product produced on 2003, The company adheres to the service tenet of "meeting customer needs and exceeding customer expectations" and has continuously won the respect of customers. Products are exported to North America, South America, Europe, the Middle East, East Asia and other places, and the domestic market has also increased in recent years.

Step 01

Step 02

The annual output value has exceeded 20 million US dollars. The company has modern factory buildings of 35,000 square meters, and has more than 50 advanced injection machines and more than 200 excellent employees, including 30 senior professional designers and more than 50 mold technicians, mechanics, sales and other professional talents.

Step 03

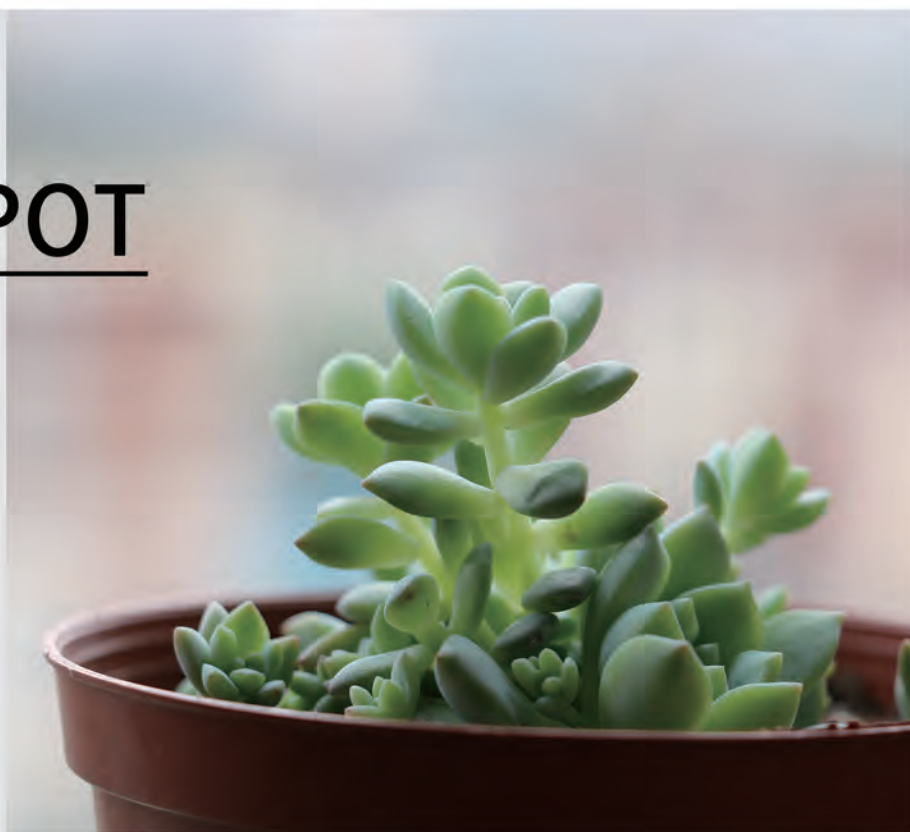

Step 04

Along the way, the company has been recognized and respected by the market for its strict and stringent quality requirements. The products have obtained national compulsory product certification and international export certification; the company has passed ISO9001, ISO14001, OHSAS18001 management system certification.

Chuangsheng has been developing and innovating for more than fifteen years. Now it has designed and developed more than 100 series of various horticultural products, more than 2,000 varieties, and the annual output of flower pots has reached more than 50 million. The pass rate is always above 99.9%.

In order to ensure consistent production quality, Chuangsheng invests more than 10% of its sales per year for technological innovation. Facing the constant changes in the market environment, Chuangsheng people will never be satisfied with the status quo. With the mission of improving the horticultural manufacturing process and enriching the colorful life of mankind, we will continue to work hard to make great progress.
