Plant Market BV

Your sales and
logistics partner

Services

Plant Market's range of services have expanded considerably in recent years. Our web shop is the European platform for the purchase and sale of garden plants and tree nursery products.

Plant Market takes care of the complete logistical and financial settlement between you and our partners. More than **400** top growers are currently affiliated as partners, with a current stock of over **40,000** different articles from which our **12,000** users can choose.

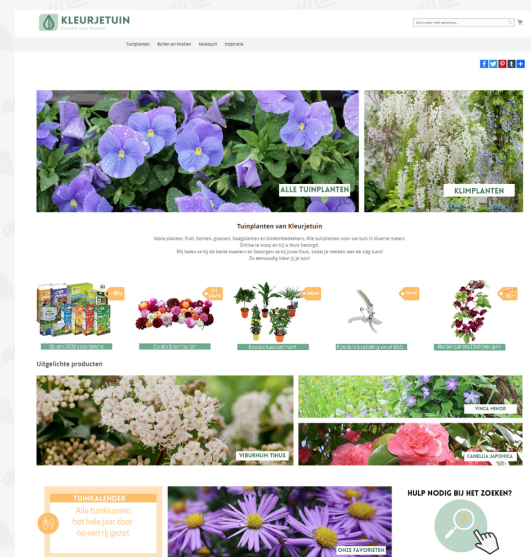

In addition to providing market insight for customers, Plant Market can also offer a number of key services, namely:

- Bespoke web shop;
- Link data;
- Export service;
- Plastic pallet boxes;
- E-fulfillment;
- Unique assortment photos;
- Unique plant descriptions;
- SEA support.

Bespoke web shop

Wanting to start your own web shop and achieve more sales, but you lack technical knowledge? Plant Market can help out.

- Link to own stock administration;
- Display the Plant Market stock list on your own web shop;
- Daily updated stock list;
- Additional sales channel;
- Saving costs through automation;
- 24/7 insight into your stock, prices, and quotations.

Link data

Our stock, prices, assortment photos and plant characteristics in your system, to serve your customers even better. Use our API link to provide your web shop with additional data.

Export service

Plant Market is specialized in exporting garden plants to various countries both within and outside of Europe.

- Preparing the necessary export documents;
- Arranging plant inspections (when required);
- Arranging transport.
