

Shakti Polyweave Pvt. Ltd., as the name suggest is the global supplier of polypropylene woven technical fabric and bags based in western India. The company is a part of "Shri Jagdamba Group" formed in late 80's with diversified interests in technical textiles, polypropylene bags, renewable energy and real estates.

This woven polypropelene division was established with a capacity of 700 tonnes per annum to cater the domestic Indian packaging industry. With the growing demand and "constant self evolving" attitude of directors, three divisions were formed within the marketing group relatively termed as

- **SPL AGRO-TECH FABRIC**
- **SPL CONSTRU-TECH FABRIC**
- **SPL PACK-TECH PRODUCTS**

With the help of this focused marketing approach, group has reached a production level of 60,000 tonnes annually and targeting another 20,000 tonnes in next three years. The company has production facility spread over 1.75 million Sq feet and thanks to its 12 high speed state of art extruders and 560 flat and circular looms it can pump out 160 tonnes of finished fabric every day.

With the help of in-house training theory and strict quality checks, SPL is able to export 90% of its product all over the globe. We at SPL believe not only in Supplying products, but forming strategic partnership relation with the customers, which ultimately forms a deep bond for a longer period of time.
