The extra mile in hedge and garden plants

As a specialist in hedge and garden plants, Van den Beucken Boomteelt dedicates itself every day to the cultivation of top-quality plants.

“Fair collaboration, transparency and reliable communication: this is what energises us and why we go the extra mile in hedge and garden plants at our professional location.”

At our modern and professional nursery, located in Helden in the province of Limburg (NL), we work on the cultivation of more than forty different types of hedge and garden plants every day.

You can contact us for uniform batches in large volumes and in various pot sizes. We supply everything from in-house cultivation, which means we can guarantee high quality. We go the extra mile, so that our plants also excel after they leave our nursery.

Customisation is no problem for us!
