SUPPORTS YOUR GROWTH

Products with service in the DNA

total supplier “supporting your growth”

Van Tuijl's strength lies in its strong customer relationships, due in part to the very personal approach of our sales people. Because of the intense collaboration with our customers, the most specific details and wishes come to the surface. In consultation with the customer, Van Tuijl translates these into an existing or custom-made product.

Our mission is to represent the interests of the growers and service is of the utmost importance! We guarantee short delivery times and through our own transport, we can make every effort to deliver quickly and efficiently from our own warehouse.

Family business *since 1823*

TOTAL SUPPLY WITH ITS OWN PRODUCTION

Haafden (NL)

The history of *Van Tuijl*

1823

Cornelis van Tuijl

Van Tuijl has been around for generations. Van Tuijl originated in animal feed, compost and potting soil.

Over 200 years, Van Tuijl has developed into a leading producer and trader in pots, trays and all necessities. Everything for the grower.

1974

The plastic pot

It started in animal feed, compost and potting soil, after which the switch was made to stone flower pots in the early 70s. A couple of years later, in 1974, the first plastic flower pots under our own brand names, came onto the market.

2001

Vatuplast

Vatuplast is Van Tuijl's injection moulding company and makes it possible to produce a total package of specific pots and also to deliver them. Now, Vatuplast has introduced a wide range of successful pot models to the market.

Foundation

Own production

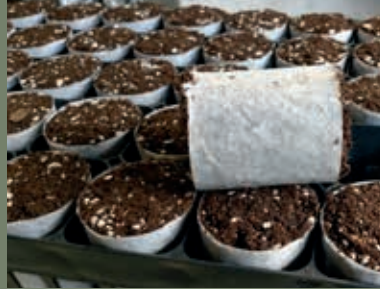

2011

Vatusticks products

In 2011, Van Tuijl established its subsidiary, Vatu sticks B.V. Vatu sticks imports Tonkin sticks, Top tree clips, Split bamboo, Bamboo bows, Clip sticks, Plant racks and bamboo racks.

2019

Paper pots

The Paper pot is a paper cover that envelops substrate and can create the right start for every young plant. If the paper pot is fully grown, it can be processed into other pots or in the ground. Van Tuijl has many types of paper that can be recommended for different applications. Automation and machines are also part of the Van Tuijl product range.

2023

200 jaar Van Tuijl

Van Tuijl has been around for 200 years. A family business with a healthy dose of ambition and entrepreneurial spirit. A new logo and corporate identity depict the next steps for Van Tuijl. Personal and service-oriented with a complete programme: everything for the grower.

Bamboosticks

Let's grow together!

200 year jubilee

Total supplier for tree nursery

Materials for the tree nursery in the broadest sense of the word are an important pillar of Van Tuijl's activities. From shrub grower to avenue tree grower.

Total supplier for tree nursery

Van Tuijl has several own import lines from both Europe and Asia. Examples of these are: its own line of wire baskets, Tonkin sticks, coconut mats, mesh material and binders. Our range is both broad and deep. What we offer ranges from Felco garden shears to propagation materials. In other words: "Van Tuijl, everything for the grower".

Automation

Total supplier for soft fruit

Van Tuijl produces and delivers a complete programme for soft fruit growing. For example, products for growing young plants, soft fruit automation, cutting trays, waterproof cardboard containers, own production of special pots, soft fruit and strawberry trays to bamboo sticks.

What can we do for you?

Are you considering making your own soft fruit pot, flower pot, planter or other plastic product? We are happy to help you translate the needs of the growers, in both the soft fruit and horticulture sectors, into the right product. In addition to the standard range, Van Tuijl can also deliver custom work. With a good dose of experience, our representatives are happy to help you come up with and develop the right products.
