

Packaging solutions for smart and sustainable Supply Chains.

Discover our multi-use packaging solutions that are circular while retaining residual value and equipped with digital technology. Applicable across various industries and sectors.

Multi-use packaging solutions to replace single-use packaging.

At Newwen we offer a wide range of packaging solutions. Newwen products features a linked RFID, barcode and QR code label for tracking and recording movements or locations. The material is fully reusable and retains residual value. Newwen's products contribute to circular energy-neutral logistics and make your internal and external processes more transparent and efficient. Newwen boxes are redefining the industry's norms. With the potential for up to 25 uses, they offer longevity and sustainability that was previously unimaginable. They boxes not only provide economic benefits, but also contribute to a better future for our planet. The benefits extend beyond environmental impact, becoming a unique selling point for businesses.

I.o.T. solutions

Our products feature an integrated RFID and QR barcode label, which, through our scanning app or automated equipment, records all inbound and outbound movements directly into your ERP software. This integration is available to streamline your operations. Benefits include digital inbound and outbound tracking, automated inventory counting, and increased visibility into process time data. The potential applications of digital technology are boundless—please contact us for more information.

Our solutions your benefits.

We supply an extensive standard assortment and also provide customization. Newwen boxes are produced using ultrasonic welding. This makes Newwen boxes stronger than glued boxes, and no chemicals are used.

Our range of options

- > Full color printing
- > Customization
- > IoT for optimal supply chain management
- > Suitable for automated handling and mechanisation
- > Free scanning and logging app to link data to your ERP system
- > Can be made flat or foldable
- > Damp-proof
- > Antibacterial
- > Antistatic
- > Residual value
- > 100% recyclable
- > Multi-use is more cost effective than one-off
- > UV-protection

The future? It's now. We make it happen.

With more than 25 years of experience in logistics and supply chain, Newwen is a renowned company specializing in logistics, fulfillment, and reusable packaging materials with digital technology.

Sustainable footprint.

Our Newwen products exemplify sustainability and have a 100% eco-friendly composition. In addition to standard colors, the products are available with color printing of 1-4 vibrant colors. Our materials are sourced from responsible suppliers and include a combination of virgin material and 10% up to to 100% recycled material, promoting a sustainable footprint. We understand that every project has different requirements, which is why we offer different thicknesses including 600, 800 and 1000 gram/m² and material thicknesses from 3 to 5 mm.

The expertise you need is ready.
